EDUCATION

B Tech in Artificial Intelligence

Currently pursuing a B.Tech in AI at GHRCEM Pune, Autonomous Institute, Affiliated to Savitribai Phule Pune University. currently in the second year of engineering. Developing a strong foundation in artificial intelligence concepts while simultaneously enhancing my skills as a self-taught Android developer. Proficient in languages such as Dart, Java, and Kotlin, with a passion for building innovative and user-friendly mobile applications. Eager to apply my knowledge and skills to real-world projects.

PERSONAL PROJECTS:

1. AI Virtual Assistant (Android/Flutter, AI & ML): Developed an AI-powered virtual assistant for voice-based interactions.
2. Video Call Application (Android/Flutter): Created a real-time video call app with features like screen sharing and chat functionality.
3. YouTube App Clone (Android/Java, Flutter): Built a feature-rich YouTube clone with offline viewing and personalized recommendations.
4. Virtual AI Teacher (Mobile App/Flutter): Developed a mobile app serving as a virtual AI teacher for interactive for kids.
5. E-commerce Shopping Website : Created a secure e-commerce website with product catalog and payment integration.
6. Medical/Health Website: Developed a Flutter website for a medical organization with appointment scheduling and health resources.
7. Flipkart and Amazon App Clones (Flutter): Developed Flutter clones of e-commerce apps with key features like browsing and checkout.
